PROFESSIONAL SUMMARY

Android Developer with 1+ year of hands-on experience building production mobile apps with Kotlin and Jetpack Compose. Sole developer architecting and building Deelo's native Android app end-to-end, while also contributing across React/Next.js web consoles and a Node.js GraphQL backend. Skilled in scalable, multi-module app architecture, real-time GraphQL APIs, payment and push-notification integrations, DSA, and SOLID principles.

TECHNICAL SKILLS

Programming Languages: Kotlin, Java, TypeScript, JavaScript, C++

Android (Native): Jetpack Compose, Material 3, Hilt (DI), Coroutines & Flow, Room, DataStore, Navigation Compose, Coil, Maps Compose, XML

Cross-Platform Mobile: React Native, Expo

Web & Frontend: React, Next.js (App Router), Tailwind CSS, shadcn/ui, Radix UI, Framer Motion, GSAP, HTML, CSS

Backend & Auth: Node.js, Express, Apollo GraphQL Server, Ktor, REST APIs, JWT, RBAC

APIs & Data: GraphQL, Apollo Client, graphql-ws (real-time subscriptions), GraphQL Codegen

Databases: MongoDB, Mongoose, Redis, Room

Cloud, Services & Maps: AWS (S3, DynamoDB), Firebase, Sentry, Google Maps, Leaflet

Integrations: Razorpay & Cashfree (payments), FCM & Expo Push Notifications, Twilio

Concepts: DSA, SOLID, Clean & Multi-Module Architecture, MVVM, OOP

Tools: Git, GitHub, Android Studio, IntelliJ IDEA, VS Code

PROFESSIONAL EXPERIENCE

Android Developer

Mar 2024 – Present

Deelo (Early-Stage Startup)

- Sole developer and owner of Deelo's native Android app (currently in active development) — single-handedly architecting a multi-module, Clean Architecture codebase for customer, agent, freelancer, and shop flows using Kotlin, Jetpack Compose, Hilt, and Apollo GraphQL.
- Built and shipped production React/Next.js web consoles — the Agent Admin Dashboard and Onboarding portal — using Apollo Client with real-time graphql-ws subscriptions, TypeScript, and Tailwind CSS.
- Contributed to the Node.js GraphQL backend (Express + Apollo Server, MongoDB, Redis), integrating JWT auth with RBAC, Razorpay/Cashfree payments, and push notifications.
- Delivered an SEO-optimized marketing landing page with rich animation and motion design, plus the cross-platform Deelo customer app.

KEY PROJECTS

Deelo Android App – Native Mobile Application (Sole Developer, In Development)

Multi-role Android app (customer, agent, freelancer, shop) with real-time orders, maps, and payments, architected and built end-to-end on a scalable multi-module Clean Architecture.

Stack: Kotlin, Jetpack Compose, Material 3, Hilt, Apollo GraphQL, Coroutines & Flow, Room, DataStore, Google Maps Compose, Firebase

Deelo Agent Admin Dashboard – Operations Web Console

Real-time dashboard for agent operations with data tables, analytics charts, and interactive maps.

Stack: Next.js, React, TypeScript, Tailwind CSS, Apollo Client, graphql-ws, shadcn/ui, TanStack Table, Recharts, Leaflet

Deelo Customer App – Cross-Platform Mobile

Cross-platform customer application with in-app payments, live location, and push notifications.

Stack: React Native, Expo, Apollo Client, GraphQL, React Native Reanimated, Razorpay, Cashfree

Deelo Backend API (mumu-apis) – GraphQL Server

Modular GraphQL API powering the entire Deelo platform, with real-time subscriptions, auth, payments, and notifications.

Stack: Node.js, Express, Apollo Server, MongoDB, Mongoose, Redis, AWS S3, JWT, RBAC

Deelo Onboarding Portal & Landing Page – Web

Merchant onboarding flow and an SEO-optimized marketing site with rich animation and motion design.

Stack: *Next.js, React, TypeScript, Tailwind CSS, Apollo Client, Framer Motion, GSAP, Lottie*

Connect – Social Networking Application (Personal)

Social app enabling users to connect through posts and direct messaging, with real-time interaction.

Stack: *Kotlin, Jetpack Compose, Ktor, MongoDB*

EDUCATION

B.Sc. in Computer Science

Jul 2019 – Jul 2022

College of Applied Sciences (IHRD), Puthuppally

Android Development Intern

Sep 2022 – Dec 2023

Prototype, Kottayam
